

To: PRx Members and Executive Officers
From: NAHB Public Affairs
Date: January 20, 2010
Subject: Column Service Articles for February 2010

In this e-mail you will find links to two column service articles containing information of interest to consumers. You can use these in your local newspapers, magazines or newsletters under your executive officer or president's byline or put them on your Web site to provide home building industry news and timely consumer information to your community. To give them even more impact, we recommend that you customize them with information appropriate for your local area. You must be logged in to www.nahb.org to access the articles.

This month's articles are:

1. [Heat Your Home Efficiently This Winter Season](#)
2. [Tips to Ensure a Successful Walk-Through of Your New Home](#)

You can also find these two articles, along with past articles on the NAHB Web site, by clicking [here](#).

Note: Just a reminder that column service articles are kept for exclusive use by HBA staff and NAHB members for two years. We are always looking for suggestions on topics that you think will be of interest to consumers.

Please contact [Brooke Fishel](#) in NAHB Public Affairs at 800-368-5242, ext. 8061 if you have questions.
